Index to Volume 2

Aldrin
in carrots 10
in milk and butter 25
photoconversion products of 1
Alfalfa
extraction and location of chlorinated hydrocarbon residues 191
maximum recovery of pesticides from 274
Analysis
fast procedure for routine cholinesterase determinations 357
determination of cholinesterase 34
improved all glass gas chromatographic system for 47
quantitative sample concentration procedure 355
Animals
cleanup method for gas chromatography of residues in 264
dieldrin in chicks from accidental exposure 12
dietary intake and concentration of dieldrin and endrin in dogs 207
monitoring pesticides in mallards and ducks 101
occurrence of lead in tissues of wild birds 297
transfusion of paraoxon treated homologous erythrocytes into rabbits 220
use of fish to monitor pollution by organophosphorous pesticides 156
Apparatus
for obtaining emission spectra of organic compounds 255
improved all glass chromatographic system 47
simple liquid-liquid partitioning 53
Azinphosmethyl
comparative residues from low volume and water emulsion application of 340
Carbamates
effects on estuarine fish 147
pentobarbital susceptibility of mice effected by 163
Carbon monoxide
exposures in parking garages 182
Chlorate
test for residues of 251
6-Chloropicolinic acid
estimation in soil 289
Cotton
metabolism of ^{32}P labelled Dasanit in 228
Cholinesterase
fast simple routineprocedure 357
from fish brain used to monitor pollution 156
determination 34
2,4-D
degradation in forest litter 65
DDD and DDE
in mallards and ducks 101
DDT
determination in the presence of toxaphene 372
extraction and location in alfalfa hay 191
levels in fish, streams, stream sediments and soil 127
in mallards and ducks 101
in milk and butter 25

DDT (con'td)
pesticide monitoring in Louisiana 333
solubility in water 90
Dasanit
metabolism of ^{32}P labelled in cotton 228
Diazinon
persistence in soil 83
Dieldrin
in broiler chicks 12
in carrots 10
dietary intake and concentration in dogs 207
effect on guppies 57
in mallards and ducks 101
in milk and butter 25
Diquat
residues in potato tubers 169
Dimethoate
2,6-dibromobenzoequinone-4-chloroimide as a reagent for 364
Dimethylsulfide
attractant for fruit flies 121
Diphenamid
photolysis of 349
Emission spectra
of organic compounds determined by microwave emission gas chromatography 255
Endrin
dietary intake and concentration in dogs 207
Gas chromatography
all glass system for microanalysis of pesticides 47
cleanup of samples for 264
identification of Kelthane breakdown products 306
residues of BAY 9015 by 111
spectra obtained with microwave emission detector 255
Guthion
microwave emission spectrum of 255
Herbicides
residues of diquat in potato tubers 169
vapor pressure of dichlobenil 178
Insecticides
accidental exposure of broiler chicks to dieldrin 12
aldrin and dieldrin in carrots 10
cleanup for gas chromatography of residues 264
comparison of residues resulting from low volume and water emulsion sprays of 340
2,6-dibromobenzoequinone as a reagent for phosphorothionates 364
DDT, aldrin and dieldrin in milk and butter 25
DDT, DDD, DDE and dieldrin in mallards and ducks 101
DDT in fish, streams, stream sediments and soils 127
determination of Toxaphene in the presence of DDT 372
dietary intake and concentration of dieldrin and endrin in dogs 207
effect of dieldrin on the reproduction of guppies 57
effects of Sevin on fish 147
effect on mice 163

Insecticides (con'td)
extraction and location of chlorinated hydrocarbons in alfalfa hay 191
fish brain acetylcholinesterase used to monitor pollution 156
identification of Kelthane breakdown products 306
metabolism of ^{32}P labelled Dasanit in cotton 228
4-(pOnitrobenzyl)pyridine as a spray for organophosphorous pesticides on thin layer chromatography 279
persistence of Diazinon in soil 83
photoconversion of aldrin 1
recovery of from alfalfa 274
solubility of p,p'DDT in water 90
transfusion of paraoxon treated homologous erythrocytes into rabbits 220
Kelthane
identification of breakdown products 306
Lead
occurrence in tissues of wild birds 297
Lindane
rapid microdetermination in rice 243
Linuron
automated determination of in soil 236
thin layer separation of 75
Malathion
comparative residues from low volume and water emulsion application of 340
Methylparathion
comparative residues from low volume and water emulsion application of 340
Milk
DDT, aldrin and dieldrin in milk and butter 25
styrene monomer in 41
Paraoxon
transfusion of treated homologous erythrocytes into rabbits 220
Pentachlorophenol
effects of temporary exposure to an individual 293
in human urine 319
Photolysis
of Diphenamid 349
of aldrin 1
Potato
Diquat residues in tubers 169
Reproduction
effect of dieldrin exposure on reproduction in guppies 57
Rice
rapid microdetermination of lindane in 243
Styrene
monomer in milk 41
Soil
automated determination of linuron in 236
cleanup method for gas chromatography of residues in 264
estimating 6-chloropicolinic acid in 289
persistence of Diazinon in 83
separation of linuron and diuron from 75

Toxaphene
Determination in the presence of DDT 372
Urine
pentachlorophenol in 319
